The instructor provided helpful feedback.	13	0	1	0	3	9	4.54	4.78	0.88

* For an explanation of the *interpolated median*, please see http://spu.edu/depts/insdev/interpolated_median_explanation.pdf

General Comments

What recommendations do you have for changes? Advanced Information Security

Comments
more penetration testing examples, perhaps a red vs blue team type of thing
N/A
N/A
none
I would recommend making the course more organized & sticking due set due dates. I appreciate the flexibility of the course, but it is helpful to be able to plan ahead on assignments.
needs to be more organized
Although the tests were related to the content of the course the in class material felt all over the place and not organized.
N/A
The content of the course makes it a bit hard to stay on track. I would recommend trying to stick to the syllabus as much as possible but I do understand that some circumstances do not allow this.
N/A keep being the goat. Make us more food.
I'm not sure.

What helped you learn in this course? Advanced Information Security

Comments
doing the homework, following along with class examples, study guides
Thought-provoking questions/riddles that pertained to course instruction fostered better attention
The examples in class
Great teacher helped understand systems
Working in Kali Linux was a great experience & I liked that we used it consistently.
n/a
The labs and ctfs helped me learn the most and gave me the most out of the class.
N/A
MJ always comes to class in a good mood with something interesting to say. That really helps me stay engaged during class
Positive environment it felt very relaxed in an academic sense. Very nice professor who brought his own experience into the coursework.
I liked using the Kali Linux VM to get hands on experience.
